

# Advancing Cyber Defense

# The Next Peak Proposition

Tackle complex challenges through advanced approaches

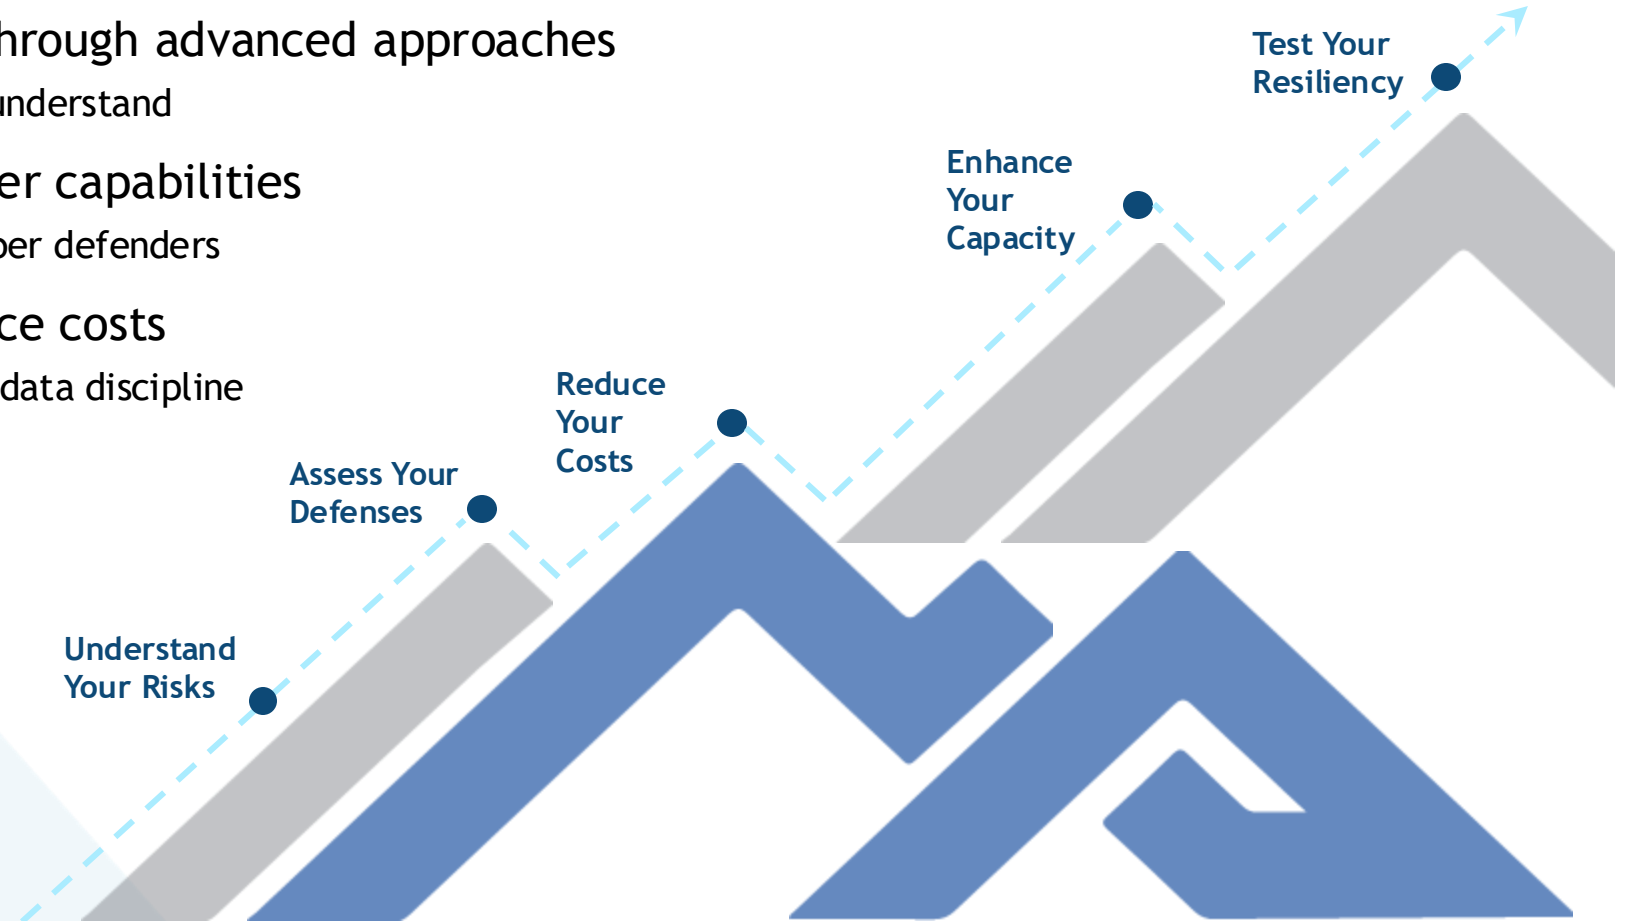

- Prepare for ransomware & understand

Uplift and enhance your cyber capabilities

- Make the climb with our cyber defenders

Improve efficiency and reduce costs

- Establish lean operations & data discipline

We work with clients given their size, maturity and ambitions to empower defenses and reduce costs

# Taking you to the Next Peak

## Our Leadership Team

- Led one of the largest global corporate cyber uplifts
- Drove White House cybersecurity strategy & programs
- Pioneered Advanced Persistent Threat (APT) & Operational Collaboration concepts
- Commanded the US Air Force's cyber warfare capabilities

**Greg Rattray, Ph.D.**  
Colonel, USAF, (Ret)  
Partner/Co-Founder

Our Defenders have deep corporate & national security experience

**Jim Cummings**  
Colonel, USAF, (Ret)  
Partner/Co-Founder

## Collaboration Partners & Strategic Alliances

# Cyber Defender Network

## Our Defenders have:

- Driven global corporate cyber uplifts
- Built & operated advanced cyber ops centers
- Identified advanced persistent threats
- Developed US military cyber tactics manuals
- Established corporate cyber playbooks
- Led response through major cyber breaches
- Deep expertise in MITRE ATT&CK, NIST, ISO, & other cyber defense frameworks
- Built secure remote work systems

## COMMERCIAL INNOVATORS

## NATIONAL SECURITY LEADERS

## CERTIFIED PROFESSIONALS

Our team can bring best of breed solutions without the overhead

# Our Defenders
